Jon's comment:

We modeled our school's curriculum, teaching methods, and class management methods off what I learned from a week at Helene's school in Fukuoka fourteen years ago. Spending a week with her and her staff provided us with an invaluable blueprint for an effective, fun, well run children's English school. I don't know how we could have come this far without Helene, to be honest!

Helene's comment:

The TEMI In-house week Jon spent with us was invigorating. He was so responsive to our ideas and advice. Jon is a natural teacher and has a great sense of humor. It gives us joy to know that he and Hiromi have created a safe English haven in Hamamatsu for their loyal students.
