### **About teaching:**

It is my sincere hope that I have been sharing with my students lots of “Eureka” and unforgettable, inspiring moments to last their lifetime.

### **Helene's Comments:**

I met Marianna at a Maruzen/ Little America Book Store presentation at in Tokyo. I was swept away by her enthusiasm for the materials and her insight in how to use them. Her gusto ignited the group and inspired all of us. It was clear she is a true teacher. I invited her to our Tokyo TEMI Seminar being held the next day. At that seminar, too, she radiated spontaneous enthusiasm, made strategic contributions and encouraged all the teachers to network, share ideas and grow together. I miss her during the year and feel “at home” when I get to see her again.
