Motto: “A Bridge to the Future”

Boston International English School offers English language instruction for children from kindergarten through high school. Our curriculum includes various lesson formats such as 50-minute, 90-minute, and 2-hour lessons, with 50-minute classes supported by educational resources from Little America. In 2024, we introduced a specialized STEM, STEAM, and Discussion course. The 90-minute classes are tailored for international school students, while our Returnee program provides two-hour instruction for students who have studied abroad.

Phil's comment:

TEMI is an awesome platform to connect with fellow educators. I really enjoy teaching and sharing ideas with other teachers. I've had a blast attending all the online seminars. But my first TEMI seminar, years ago, at the Maruzen Bookstore will always be a special memory. It was a fun and engaging experience, and it was the first time I met Helene. I got to see her in action and learn a ton about teaching. Since then, I've incorporated many of the teaching methods we discussed in that seminar into my own teaching.

Helene's comment: Phil has always impressed me with his dedication and professionalism. He clearly respects his students as exemplified by the effort that goes into creating and conducting his superb lessons. He brings out and recognizes the best in them. He has attended many TEMI seminars and, without fail, always inspires other attendees and me! I have learned many excellent teaching tips from Phil, the best of which is: “Giving a pink crayon to students who forget their pencil!”
