Helene's comment:

Yoko has attended over 20 TEMI Seminars. She keeps returning because she says she always learns something new. But it is we, who are always inspired by her. She is the epitome of dedication and passion to teaching. Her students have always been her first priority. Thank you, Yoko-sensei, for being a great teacher to your students!

Yoko's Comment:

I've attended over 20 TEMI seminars. Each one has always given me something fresh and new. I could succeed as an English teacher because of what I learned from TEMI.
